

2nd MBI Microphotography Competition

Aims

1. To showcase the excellent work of scientists in reflecting the beauty and complexity of cellular mechanics.
2. To recognize scientists for their contributions to lifesciences and bio-research.
3. To showcase the capabilities of the microscopes on Level 9 & 10 and to encourage users to continuously improve their skills in image acquisition.

Terms and Conditions

1. Anyone interested in imaging using microscopes is welcome to enter the competition, with the exception of Microscopy Core staff.
2. Entries submitted must be taken using any of the microscopes in MBI.
3. All images must be original.
4. Images preferably in **.TIFF** format can be submitted to Jasmine, Kah Jun or Yanxia directly or through email. Please submit the highest quality image with regard to bit depth and resolution.
5. Each entrant may submit up to **3** images for judging, completed with the following information:
 - 1. Name of participant**
 - 2. Name of PI**
 - 3. Specific microscope and magnification used**
 - 4. Imaging method**
6. Entries will be judged based on visual Impact and technical proficiency.
7. Entries must be received no later than **31th August, 2011** to be eligible for prizes.
8. MBI reserves the rights to use the entries for official purposes and appropriate photo credits will be included.
9. Failure to comply with and accept all of the preceding rules will disqualify any entry.
